DETAILED ACTION

EXAMINER'S AMENDMENT

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

1. The abstract of the disclosure is objected to because there are the phrases of "disclosed" in the abstract. See MPEP § 608.01(b). A new abstract is provided in a separate sheet herewith.

2. The application has been amended as follows:

In claim 27,

line 1, replace the letter "A" with --- A device as claimed in claim 15, further a ---;

and

line 7-8

; and

line 8, delete the phrase "a device as claimed in claim 15".
